CODING PROFILES

- **GitHub:** github.com/adityahikke
- **LinkedIn:** <https://www.linkedin.com/in/aditya-hikke>
- **LeetCode:** leetcode.com/adityahikke
- **CodeChef:** codechef.com/users/adityahikke

SKILLS

- **Languages:** Java, HTML, CSS, JavaScript
- **Frameworks/Tools:** Node.js, Express.js, MongoDB, VS Code
- **Version Control:** Git, GitHub

EDUCATION

- **B.E. in Electronics and Computer Engineering**, PICT, Pune Pursuing — CGPA: 8.40 (Till Sem III)
- **HSC**, Bharat Bharti Junior College, Parbhani 79.17%
- **SSC**, Gandhi Vidyalaya, Parbhani 95.80%

ACADEMIC PROJECTS

- **Student Management System** – Developed a full-stack web application using HTML, CSS, Vanilla JavaScript, Node.js, Express.js, and MongoDB to manage student records efficiently. The system features secure authentication for both students and admins, allowing students to view their personal details, academic records, achievements, and notifications through a user-friendly dashboard. Admins can perform full CRUD operations—adding, editing, or deleting student profiles—through an intuitive admin panel. The project emphasizes a clean UI, modular code structure, and robust backend logic without relying on front-end frameworks like React.
- **Portfolio Website** – Created a personal portfolio using React, Vite, HTML, and CSS. It showcases my projects, skills, and contact details in a clean, responsive layout.

POSITION OF RESPONSIBILITY

- **Coordinator, DEBSOC – Debate Society, PICT**
 - Organized campus-wide debate events and public speaking workshops.
 - Enhanced leadership, planning, and communication through active club coordination.

ACHIEVEMENTS & INTERESTS

- Successfully deployed a Student Management System with responsive UI and powerful admin capabilities.
 - Active participant in online contests and hackathons on CodeChef, LeetCode, and other platforms.
 - Interests: Public speaking, debating, exploring new web technologies, and content writing.
-
